For custom panel dimensions and window cutout see page 69.

45cm (18") Wine Column Panel Ready
Installation requirements

INSTALLATION

All Bertazzoni columns can be installed in a standard 635mm (25") depth cutout.
Finish the edges of the opening because they may be visible when the door is open.
For a built-in installation, to cover gaps between the appliance and the adjacent cabinets, special side profiles are factory-installed and covering frames are provided with the product.
For panel ready columns, do not exceed the maximum weight of 34 kg (75 pounds) for door panel. Panel can have thickness ranging between 19mm (¾") and 28mm (1 1/8").

For instructions of product combinations please see the Multiple Installation Section (page 58).

CABINET REQUIREMENT

Installation of the appliance must be performed in accordance with the provisions of applicable legislation.
Be sure that support of this appliance is perpendicular to the front facing of the wall or cabinet before you perform the installation.
The floor must be flat and must be capable of supporting the weight of the appliance when in use.

| Required floor support	315 kg (694 lb)

ELECTRICAL REQUIREMENT

The installation must comply with all applicable electrical codes.
A properly - grounded horizontally - mounted electrical receptacle should be installed.
Place the electrical supply flush with the back wall and within the shaded area shown in the illustrations.
Placement within the opening may require additional cabinet depth.
